Transactional Broking (Broking or Dealing) – Goldbridge Capital does not provide personal advice in relation to financial products such as securities, derivatives and foreign exchange contracts where we act in a broking or dealing capacity. Any general advice we provide to you as a retail client, when we are acting in a broking or dealing capacity, does not take account of your personal circumstances. In this instance, you should seek independent professional advice to ascertain whether our advice and the financial products you are dealing in are appropriate for your circumstances. Newsletters, trade alerts and research papers are examples of general advice we may provide to you.

Managed Discretionary Account (MDA) – We are authorised to provide MDA services. Where appropriate Goldbridge Capital, having considered your personal circumstances, needs and objectives, we will provide you with specific personal advice and issue you with an MDA services contract. These services will be conducted following an investor evaluation and a resulting Statement of Advice (SOA) being issued to you. A fundamental feature of an MDA service is that you provide authority to someone else (your investment adviser i.e. Goldbridge Capital) to invest in financial products on your behalf without prior reference to you for each individual transaction.

When providing this MDA service to you we are required to adhere to an agreed up investment program outlining a range of parameters that have been tailored to your personal circumstances.

Before taking any action to acquire any of the financial services mentioned in this FSG you should consider whether the service is appropriate having regard to your Personal Circumstances. You should also ensure that you understand the risks associated with the financial services you enter into with Goldbridge Capital.

You will be provided direct access to the MDA so you can review all transactions and the implementation of the investment program. The investment program will be reviewed annually to determine if it is still appropriate for you.

The key risks to be considered when authorising an MDA service:

- Authority may be used to invest in assets which may not suit your objectives, needs and risk level
- Authority may be used to invest in assets that may be unsuitable to you from a social or ethical position
- You may be subject to financial losses for investment decisions made, and
- We may exercise discretion in relation to corporate actions that may not be suited to your requirements.

We have implemented internal control mechanisms to manage the above risks. The issued SOA and/or the investment program provided to you with your MDA Services contract sets out details of how the above risks are managed.

This FSG complies with the conditions applicable to provision of MDA services as determined by ASIC, and in particular Division 2 of Part 7.7 of the Corporations Act 2001 and ASIC Class Order CO 04/194.

7. WHO WE ACT FOR

Goldbridge Capital is responsible for the financial services we provide to you under our Australian Financial Services License Corporate Authorised Representative authorisations provided by Jade Capital Partners. Accordingly, Goldbridge Capital is not a market maker and therefore does not act as the principal in any transactions with you.

8. WHAT OUR SERVICES COST YOU

Specific transaction fees are customised to each individual client however typically our managed accounts (MDAs) operate on a percentage per annum fee plus a percentage of positive performance.

For example: ... an MDA investment account may have a “2 & 20” fee structure that indicates the account attracts a 2% annual portfolio administration fee calculated daily and a 20% of the net positive profit performance (after any applicable transaction costs).

Another example: ... an MDA investment account may have a “Brokerage & Performance” only fee structure, i.e. no administration fee. This structure is commonly used for our OTC Derivatives such as managed margin FX/CFD strategies. In this case there would be a clearing defined brokerage rate (say \$10 per standard lot per side) plus a performance rate (say 25% of the net positive profit performance)

Performance fees on any Goldbridge Capital MDA products are calculated monthly on a “High Water Mark” basis, meaning the highest portfolio balance calculated net of all fees on your investment account. If the portfolio balance is below that High Water Mark no Performance fees will be charged that calendar month.

It is important to understand that you will be issued with a specific fee structure tailored to your investment via your MDA services contract and your investment program contained in your Statement of Advice.

The common fees and charges when dealing in financial products can include the following:

- Payment of margin & margin adjustments;
- Rollover charges;
- Interest charges;
- Commission or transaction brokerage; and
- Administration fees and performance fees.

Goldbridge is not authorised to impose any membership fees or charges for the establishment of accounts with us.
